

# 2 Years Fast Track Degree Bachelors in Business Administration

**Course Code:** STC01

**Duration:** 2 Years

## Entry Requirements

12<sup>th</sup> Pass Outs from any stream. 11<sup>th</sup> Pass Outs can also join the Fast Track Degree by doing a 4 months Foundation Course at BIPM Campus.

## Introduction

BIPM in collaboration with South Thames College London now offers a unique opportunity which has never been made available before. You can now study the BA (Hons) Business Administration Degree through the fast track mode in a period of 2 years only. Out of the 2 years, you will study year 1 at BIPM India followed by the year 2 at South Thames College London.

## The Advantage of the Degree

The global market scenario is highly competitive and employers all over the world want to see something extra in you which sets you apart from the rest. The question you need to ask yourself is 'What is your competitive advantage?' Through the BIPM - STCL we provide you with the necessary skills, exposure, internationally recognized qualification and enhanced employment opportunities which make you globally employable.

## The Degree Awarding University

South Thames College London is associated with several reputed UK Universities to offer various programmes, some of which are Kingston University, St Mary's University College, Greenwich University and South Bank University & the University of Cumbria. The BA (Hons) degree in Business Administration is awarded by the University of Cumbria.

Duration: 1 year, Level: 6  
Awarded by the University of Cumbria

**2 YEARS POST STUDY  
WORK PERMIT IN UK**

### The Benefits of the Fast Track Degree

Following are the substantive value benefits that you can derive through the BIPM – STCL collaborative programme:

- a. **TIME SAVINGS** – Needless to say, time is of essence today. Whilst most institutes offer the Bachelor degree over a period of 3 or 4 years, you can complete your degree in a period of 2 years through our fast-track route. Before introducing this programme utmost care has been taken to ensure that our students get an opportunity to complete the degree faster but without compromising on quality which we place as paramount.
- b. **COST SAVINGS** – We have conducted extensive market research and find that our programme is far most cost effective as compared to studying the degree overseas or studying foreign degrees here in India. Not only you save on tuition costs but also living and accommodation costs by completing the first year of the degree here in India.
- c. **INTERNATIONAL EXPOSURE** – A highly important yet underestimated intangible asset is exposure. In India, our exposure is limited to a finer circle which limits lateral thinking. By studying the final year of the degree in the UK, you get an opportunity to interact with professional from all over the world which encourages you think independently and out of the box. You come in with a finite set of ideologies and concepts and bloom into a more robust & confident individual, ready to take on the world in a globally competitive environment.
- d. **POST STUDY WORK PERMIT** – At present, there is an acute shortage of skilled professionals in the UK and in order to attract and retain the cream of the crowd, the Government has introduced a 2 year post study work permit on successful completion of your graduation. This is a tremendous opportunity to live & work in the UK and gain valuable experience to the UK work culture. As per industry standards, graduates in the UK earn an average of £24,000 p.a.

# South Thames College London

## Why South Thames College London:

- Government College – STCL is established by the Government statute for the purpose of education and training. It is regulated by the Department of Innovation and Skills, and its agencies, including the Learning & Skills Council (LSC), OFSTED and the Quality Assurance Agency (QAA)
- London Location – London is the financial capital of the world and a melting pot for over 200 nationalities. All world renowned international brands have a base in London and in terms of location is one of the most sought after for valuable work experience. STCL has 5 campuses in London with its main campus being strategically located in Wandsworth which is very close to Wimbledon.
- £100 million pounds campus – In the year 2009, the College received a grant of £100 million pounds to refurbish and expand the Wandsworth Campus. The campus is now up and running, equipped with state of the art resources which provides the student with an enhanced learning experience.
- Tradition in teaching excellence – Established in the year 1895, the College has a long tradition of teaching excellence. At present, with over 22,000 students from over 130 Countries offering over 2,000 courses which makes us an attractive choice for the student from all over the world.
- Additional services – At STCL we realize the needs of international students and offer a range of additional services such as organizing budget accommodation, airport pick up facility to assisting students with visa extensions in the UK.

# ADMISSION DETAILS

## How To Apply

To make an application to the course, students must finish an application form and submit a dully filled application form with relevant required academic documents. To avail an application form kindly contact the admissions office.

Alternatively an application form can be downloaded from [www.bipm.in](http://www.bipm.in) or an online application can be made on [www.bipm.in](http://www.bipm.in)

Once an application form with relevant documents has been submitted, the admissions department will scrutinize the application and make a decision.

If a student has been accepted, a Conditional Offer letter will be given with a set of conditions which a student needs to meet before the admission is conformed.

Once the student pays the deposit as stated in the conditional offer letter along with any other pending documents, a student will be given an unconditional offer letter conforming the admission.
